YOUR SMOKEHOUSE Your Way

- Built to Design and Spec
- Temperature Precision
- Powis Remote Operation
- Liquid or Natural Smoke
- Consistent Product Cook and Color

ROBUST FAN

A superior fan and high powered motor means our thermal houses create consistent, even heat that beats the competition.

POWIS CONTROLS

Customized controls enable real-time monitoring and remote adjustments, if needed. This finite level of control further increases product quality and yield.

BREAKPOINT

Eliminate cold spots and product inconsistencies with our Total Breakpoint Control System, self-adjustable to meet your needs.

HEAVY DUTY

Square tubing framework and sturdier construction makes our equipment tougher than the competition.

FOOD SAFETY

Our equipment designs exceed food safety standards to protect your product.

PARTS 101

Built with standardized parts, we lower your maintenance costs, shorten downtimes and reduce long-term inventory costs.

VIERS INDUSTRIES: A DIVISION OF KOHLER

Our dedicated team works with you from start to finish. We listen to your production needs, then develop solutions for your unique process.

New equipment from Viers is simple and standardized; no proprietary parts here! Preventative maintenance and repairs are straightforward. We stock common parts to reduce your downtime and keep your operation moving.

Designed for longevity, our skilled assemblers use premium materials to build your custom chiller to last. Viers equipment retains value over time better than the competition.
