EFFICIENT CHILLING GREATER YIELDS

BLAST

CIRCULATE

PROTECT

- Precision Temperature Control
- Multi-Staged Cooling
- Meets USDA Chilling Guidelines
- Yield Enhancing Process
- Powis Controls

AIR EFFICIENCY

High velocity, variable speed fan system delivers uniform airflow throughout your unique product zone for faster chilling.

PRECISE CONTROL

Temperature logging becomes automatic. Control the chilling process, even when you're away from the plant.

DEFROST-FREE

Stop waiting on the chiller to thaw. Say goodbye to excessive ice build-up with the Viers multi-stage cooling system.

FOOD SAFETY

Chill cooked products down quickly and precisely to retain optimal freshness and protect from bacterial growth.

HEAVY DUTY

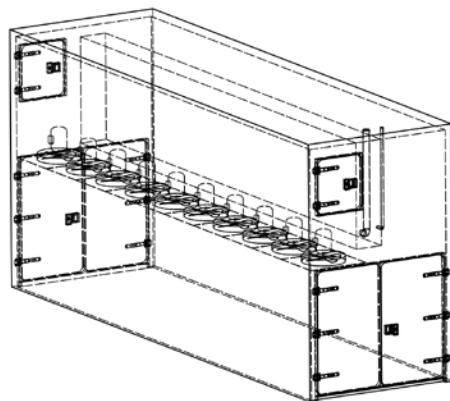

Built with quality stainless steel and insulation, the Viers Chiller features continuous welds, a reinforced roof deck and more.

PARTS 101

Built with standardized parts, we lower your maintenance costs, shorten downtimes and reduce your long-term inventory costs.

OUR BUILD PROCESS +PREMIUM MATERIALS

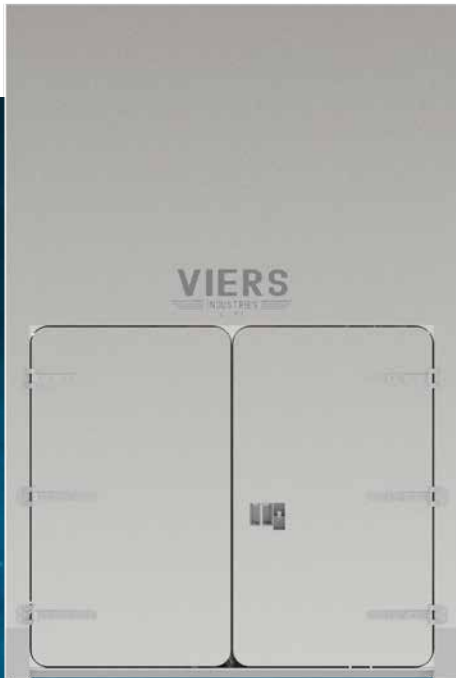

A DIVISION OF KOHLER INDUSTRIES

Our dedicated team works with you from start to finish. We listen to your production needs, then develop solutions for your unique process.

New equipment from Viers is simple and standardized; no proprietary parts here! Preventative maintenance and repairs are straightforward. We stock common parts to reduce your downtime and keep your operation moving.

Designed for longevity, our skilled assemblers use premium materials to build your custom chiller to last. Viers equipment retains value over time better than the competition.
