# KOHLER INDUSTRIES AUTOMATIC PEPPERONI PEELER

## ADVANCED PRODUCTIVITY

Reduce labor costs and amplify your pepperoni production with the Kohler Automatic Peeler. Designed to be completely autonomous, the Kohler Peeler effectively removes meat log casings with no manual feeding or handling. At a rate up to 26 meat sticks per minute (over 1,500 logs per hour) we're able to maximize your capacity and minimize overhead costs.

## CUSTOM CONSTRUCTION

Our expert team works with you to develop the most efficient solution for your unique product requirements, each peeler is fully customized and built to order. In addition, the Kohler Automatic Peeler has been engineered to eliminate costly downtime by including maintenance-friendly, standardized parts in every machine.

## PRIORITIZING SAFETY

Less handling of the product lowers the risk for contamination. Our solid stainless steel frame eliminates dangerous bacteria harbor zones and remains easy to disassemble for routine cleaning. In addition, sanitation areas are kept clear. As casings are removed, they are immediately deposited into a separate bin.

Welcome to a new era in automatic peeling equipment. Meat logs are fed into the machine where casings are released and separated from the product in a flash. Our quick removal system allows for mechanized, end-to-end, non-stop peeling operation.

The Kohler Automatic Peeler will maximize your output while cutting costs. Watch your yield per minute increase. Say yes to reductions in labor costs and lost product.

## CUSTOM BUILT PEELER

<b>PRODUCT TYPE</b>	Suitable for meat sticks (such as pepperoni and dry sausage) fed end-to-end in a single lane
<b>PRODUCT DIAMETER</b>	Maximum 2.4" (63mm) diameter
<b>PRODUCT LENGTH</b>	Minimum 40" (1016mm) long
<b>PRODUCT TEMP</b>	28°F - 32°F (-2°C - 0°C) for optimal yield
<b>YIELD</b>	Customizable, up to 26 sticks per minute
<b>POWER</b>	480 volts, 10 amp, 3-phase, standard
<b>CONTROLS</b>	HMI, swivel-mounted with password user logins, program to store product recipes and peeler settings
<b>INFEED</b>	40.5" (1029mm) high, standard
<b>DISCHARGE</b>	40" (1016mm) high, standard
<b>OVERALL DIMENSIONS</b>	127.5" long x 24" wide x 51" tall (3238mm long x 610mm wide x 1295mm tall)
<b>WEIGHT</b>	2,200 pounds (998 kg)
<b>SAFETY</b>	Safety guards and switches are standard
<b>SANITATION</b>	Easy washdown, clean design
<b>MATERIAL</b>	304 solid stainless steel frame, components and motors
<b>UPGRADES</b>	Automatic infeed conveyor (pictured right), discharge conveyor, casing removal tank and blower options available
<b>SUPPORT</b>	Remote support included, field service available
<b>ORIGIN</b>	Designed and built in the USA by Kohler Industries

# WHY CHOOSE US?

## CUSTOM SPECS

Your product is unique. It's only natural your equipment is too. Our in-house design and assembly teams tailor-build all machines to your needs.

## IN STOCK PARTS

We keep the parts you depend upon in stock, fairly priced, and ready to ship quickly. Let's keep your operation running smoothly.

## CUSTOMER SERVICE

Our customers are our partners. When you win, we win. As such, speak directly with our industry experts, engineers, and technicians at any time.

## EXPERIENCE

We're not just saying we make the cut, we are industry experts. Our leadership team has over 100 years of combined industry wisdom.

## BUILT TOUGH

We build rugged, dependable equipment that lasts. Benefit from lower maintenance costs, shorter downtimes and reduced long-term inventory rates.

## MADE IN USA

Born in the Midwest, all our equipment is made in the USA to ensure top quality. We oversee every aspect of production.
