THE BLENDER THAT WON'T QUIT

KOHLER INDUSTRIES
PADDLE & RIBBON
BLENDER

Kohler Industries has been reconditioning industrial food processing equipment since 1975. We've rebuilt so many blenders that we've discovered the recipe for equipment immortality.

Discover reliable,
high-performance
dependability.

HEAVY DUTY Solid framework and rugged construction makes our equipment tougher than the competition.

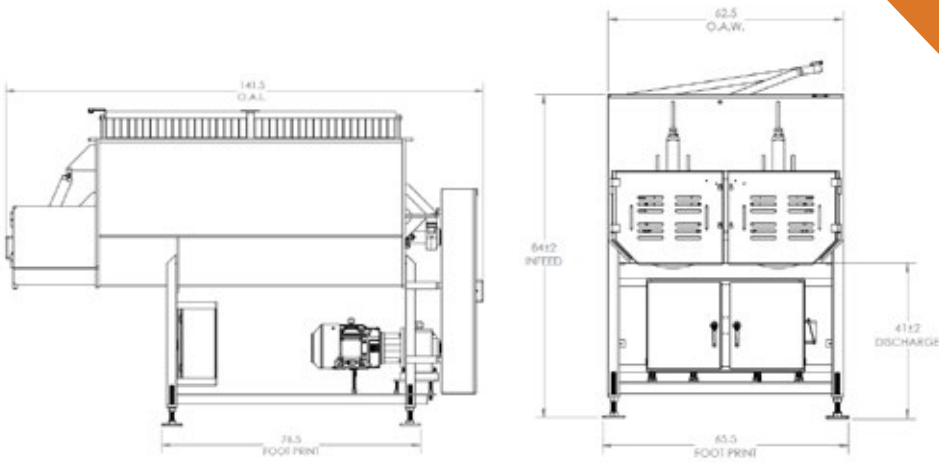

CLEAN DRIVE Our clean drive design uses positive drive belts instead of dirty chains and sprockets. Easy to maintain, never needs oil or grease.

FOOD SAFETY Solid stainless steel construction throughout. Even the agitators are solid 304SS construction to eliminate bacteria harboring points.

UNIVERSAL PARTS Built with standardized parts, we lower your maintenance costs, shorten downtime and reduce long-term inventory costs.

KOHLER INDUSTRIES PADDLE & RIBBON BLENDER

4,000 lb capacity shown for reference

CUSTOM BUILT BLENDER

CAPACITY	500-15,000 pounds
AGITATOR	Solid shaft, twin ribbon or twin paddle. Industry proven design provides quicker mix times and lower deviation between batches.
