## Meet the VT85 Glycol Jacketed Tumbler

- Flights designed for maximum massage action.
- State-of-the-art control systems.
- Drum sizes to fit all needs.
- Glycol jacketed exterior allows cooling of product as it is tumbled.
- Body tilts for quick unagitated unloading.
- Rugged and durable to take years of production.
- Gentle on the inside with superior variable speed and massage action.

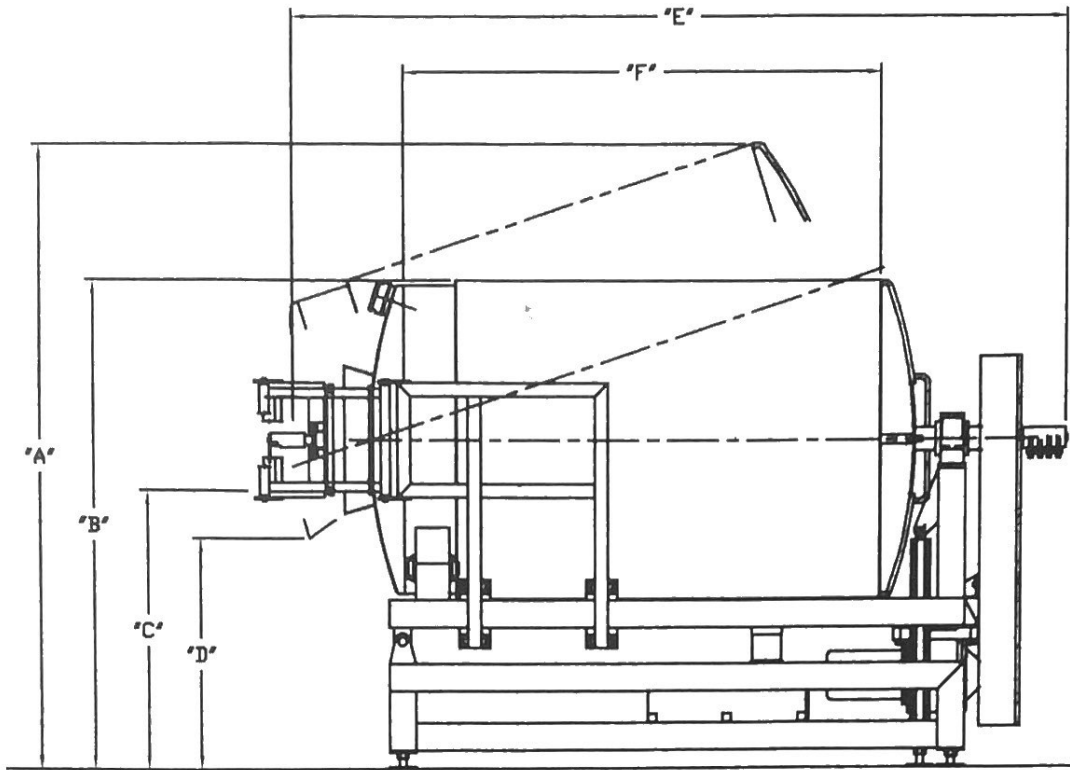

The FPEC VT85 Glycol Jacketed Tumbler sets the industry standard for durability, capability and over-all quality. It's a rugged machine. Our non-spiral flights have always been designed for maximum massage—so there is no need to increase the number of flights. Each of our tumblers is custom built with all of outstanding features to meet your needs.

The VT85 gives you the efficiency that helps you meet your bottom line, year-after-year.
