KOHLER INDUSTRIES
REBUILT
GRINDER

A BETTER GRIND(ER) FOR LESS

At Kohler Industries, we specialize in the recondition of used industrial food grinders. We have significant experience working with popular and versatile brands, such as WEILER and WOLFKING.

To ensure consistency on our grinder rebuilds, we use new or rebuilt OEM grinder components while standardizing parts where possible. All Kohler rebuilt stainless steel automatic feed grinders are equipped with standard drives, bearings, belts, pulleys and more.

Amplify your production with additional accessories such as screw pullers, wrenches, plate lifters, conveyors, and more.

BENEFITS:

- Rebuilt to new condition
- Tailored to your production needs
- Critical components are original from Weiler, Wolfking, and other top brands
- Standardized parts make customer maintenance easy and affordable
- Meets USDA food safety and inspection guidance
- New operator safety latches and guards
- Customer support after the sale

OPTIONS:

- Made-to-measure infeed and discharge heights
- User-friendly HMI controls
- Single, double or triple plate assembly
- Bone elimination system
- Storage/washdown cart
- Custom hopper, hood, and grates

KOHLER INDUSTRIES REBUILT GRINDER

Our dedicated team works with you from start to finish. We listen to your production requirements and develop solutions for your unique needs.

New equipment from Kohler is simple and standardized; no high-priced proprietary parts here! Preventative maintenance and repairs are straightforward. Parts are typically on hand to reduce your downtime and keep your operation moving.

Designed for longevity, we build every machine to last. For this reason our machines retain value over time better than any other.

OUR REBUILD PROCESS

ANALYZE

We listen to your needs to discover which equipment will best suit your needs. Once identified, we'll investigate what adjustments and customizations need to be made.

BREAKDOWN

Then, our team disassembles and examines the machine to ensure the integrity of every component, and determines what can be refurbished and what needs to be replaced with new.

FABRICATE

Once the equipment is torn down to its frame, our dedicated, in-house fabrication team gets to work making new and repairing reusable components.

REASSEMBLE

We reduce your future costs by equipping your machine with standardized parts and efficient, custom controls.

TEST RUN

After assembly, your machine is inspected and test run. Limited warranty, operator's manual, PM schedule, and parts list included.

WHY KOHLER INDUSTRIES? **BETTER VALUE**

CUSTOM SPECS

Your product is unique. It's only natural your equipment is too. Our in-house design and assembly teams tailor-build all machines to your needs.

IN STOCK PARTS

We keep the parts you depend upon in stock, fairly priced, and ready to ship quickly. Let's keep your operation running smoothly.

CUSTOMER SERVICE

Our customers are our partners. When you win, we win. As such, speak directly with our industry experts, engineers, and technicians at any time.

EXPERIENCE

We're not just saying we make the cut, we are industry experts. Our leadership team has over 100 years of combined industry wisdom.

BUILT TOUGH

We build rugged, dependable equipment that lasts. Benefit from lower maintenance costs, shorter downtimes and reduced long-term inventory rates.

MADE IN USA

Born in the Midwest, all our equipment is made in the USA to ensure top quality. We oversee every aspect of production.
