

ALKAR J-Con CPS

COMPLETE AUTOMATION FOR HOT DOGS AND SMOKED SAUSAGE

Stickless system directly links on to cook/chill chain

J-Con buffer ensures continuous chain speed while linker cycles on/off to change casings

UNLIMITED CASING LENGTH

- NL 21 currently handles 21" (533.4 mm) strand 225 feet (68.6 m)
- Reduce rework; fewer ends, fewer tie-offs
- Increase linker uptime; more capacity, better consistency

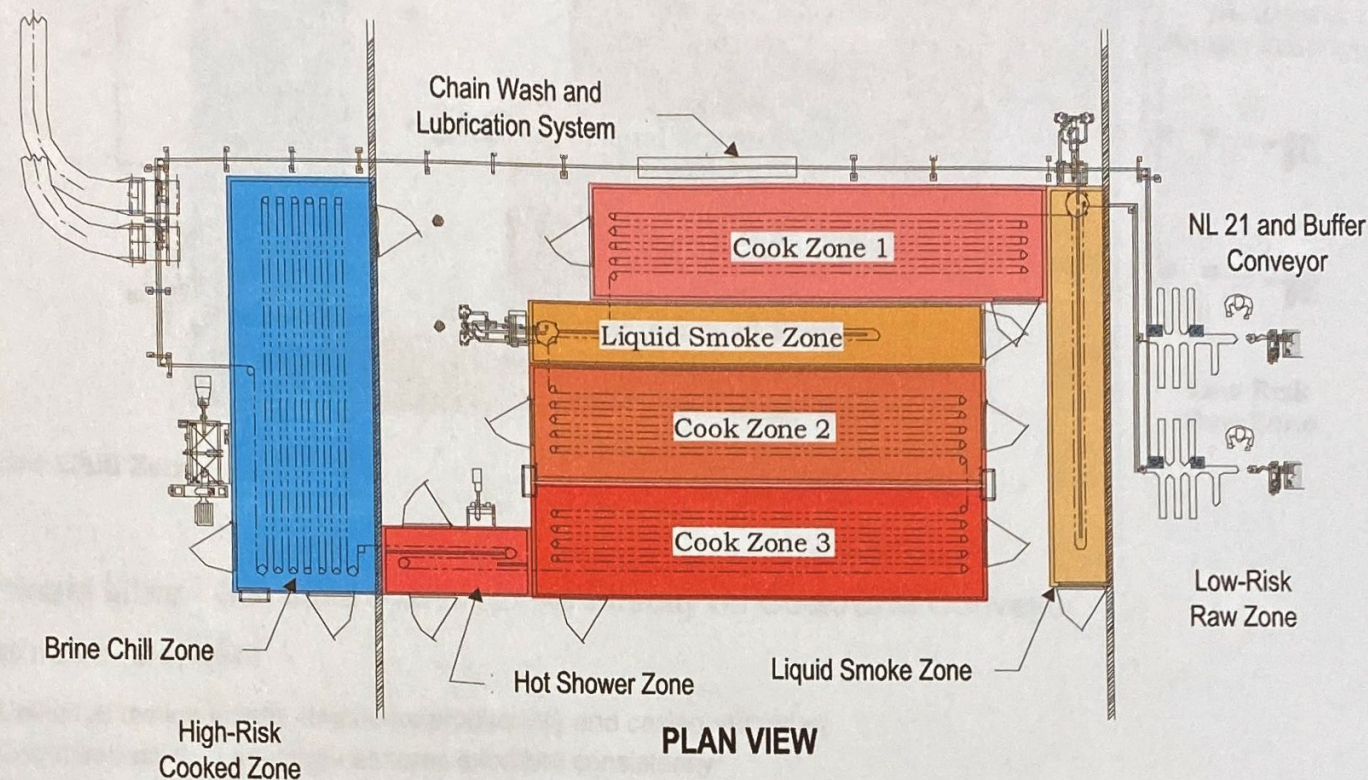

REDUCE LABOR

- Two operators; two NL 21 linkers
- One operator; two peelers
- Zero load / unload labor
- Reduce food safety risks

ALKAR J-Con CPS

Peelers

FLEXIBLE LAYOUT

- Densely loaded zones, horizontal Serpentine product flow
- Orient zones in different directions
- Pre-rinse and secondary liquid smoke zones

SUPERIOR CONSISTENCY

- Uniform spacing eliminates "touchers"; ensures consistency
- Uniform color, temperature, yield
- Potential for unlimited casing length; lowers rework

Peelers

Eliminate labor - Stickless System Links Directly on Cook/Chill Conveyor

Features & Benefits

- Unlimited casing length - improves productivity and casing utilization
- Controlled product spacing - ensures excellent consistency
- Flexible zone layout
- Uniform spacing eliminates touching and ensures consistency
- Pre-rinse and secondary liquid smoke
- Reduced labor
